Cami Kaldırım Isıtma Sistemleri

SİSTEMİMİZ EKONOMİKTİR

Sistem gün boyu çalışmaz, namaz vakitlerinden 15 dk önce devreye girer. Namazın bitimi ile birlikte sistem kendiliğinden kapanır. Bu süreler isteğe bağlı olarak daha uzun çalıştırabilir.

Sistemin saf saf yanma özelliği vardır. İstediğiniz namazda istediğiniz safı ısıtır. Cuma günleri cami'nin tamamını ısıtabilirsiniz.

Bilgisayarlı panolarımızda cami ısısının 18 derecenin altına düşmesiyle sistem otomatik olarak devreye girer ve ısıtmaya başlar.

Havaların ısınıp hava sıcaklığının 21 dereceye çıkmasıyla devreden çıkar.

Bu süreler istediğiniz kadar uzatılıp kısaltılabilir.

Özel durumlarda (mevlüt, cenaze, toplantılarda) sistem manuel konuma getirilir ve istediğiniz kadar ısıtmaya başlar.

Haftanın belli günlerinde cami dersleri yapılıyorsa eğer ders vakitlerine göre haftalık program ayarlanır ve o günlerde otomatik olarak çalışmaya başlar. Saf arasında ki 50 cm boşluk halının kaymaması ve elektrik tasarrufu içindir.
